

A scientist wearing a white lab coat, safety glasses, and white gloves is operating a laptop. The laptop screen displays a software interface with various graphs and data points. The scientist is positioned to the left of a white, boxy cryostat. The cryostat has a transparent top section revealing internal components. On top of the cryostat is a control panel with several buttons and a small display. The background shows a laboratory setting with a light blue wall and electrical outlets.

2212 Starlet Bench-Top Portable Cryostat Specification

 **MADE IN BRITAIN**

Bright
Instruments

Introduction

Not since cryostats were invented has there been such a small, portable yet convenient instrument. Featuring many design concepts developed from our continuous research programme, the Starlet cryostat is available in a choice of either handwheel or lever operation. The size of the Starlet makes it ideal as a back-up instrument or for use in laboratories where space is at a premium. Fully portable, it can be transported with ease from laboratory to laboratory and is a must for use in the 'field' - the possibilities are endless.

If frozen sectioning is infrequent and a full-sized, full-priced cryostat cannot be justified, the Starlet does the job and fits any budget. Inexpensive and reliable, the Starlet, ideal where space and funds are limited, really is unique amongst cryostats.

Features and Benefits

- An ABS Polymer and rustproof steel cabinet coated with scratch, solvent and detergent resistant PVC to provide strength and durability.
- A polished stainless-steel chamber with detachable cold storage bar and detachable storage shelf.
- Thermostatically controlled chamber temperature in the range ambient to -35°C with digital display.
- It uses disposable blades and incorporates the Easi-Set anti-roll plate.
- The Starlet cuts excellent sections just like a full-sized cryostat.
- Small and portable.
- Incorporates the Magnaplate anti-roll plate system.
- Complete with all standard accessories to start sectioning right away.
- UV Decontamination (Factory fitted option)

The Compact Cryostat

Of an elegant appearance, durable and easy to clean, the Starlet cabinet is manufactured using scratch, solvent and detergent resistant ABS Polymer and Stelvetite Polymer coated steel. The chamber is of stainless steel construction and comes complete with a detachable quick freezer bar and detachable storage shelf. Easy to clean and resistant to common decontaminating agents, the working chamber is convenient to use.

Being relatively small the Starlet can provide rapid cooldown times, down to -35°C in the chamber with the detachable cold storage bar. While not in use, an insulated cover is pressed in place to ensure efficient running of the refrigeration system and also assists in reducing frosting. If the unit is transported, the chamber will remain cold for prolonged periods.

The Miniature Radial Microtome

Unique to and designed specifically for the Starlet, the microtome is of radial, flat cutting design and is operated by a handwheel

Weighing approximately 1.8kg, the microtome is capable of cutting a wide range of specimens including soft tissue, hair follicle, cardiac muscle and lung. The Magnacut disposable blade system is fitted as standard, using long-life disposable blades for quick results, and of course, it eliminates the inconvenience of knife sharpening.

Complete with an Easi-Set anti-roll plate, the Starlet is fitted with a $2\text{-}12\mu\text{m}$ feed screw for sectioning in $2\mu\text{m}$ increments, although a $4\text{-}24\mu\text{m}$ feed screw is available as an alternative. Taking only seconds to remove from the chamber, the microtome is easy to clean, resists corrosion and is easy to service. Very little routine maintenance is required.

Environmentally Compliant

The Starlet uses a HFC refrigerant blend that is in compliance with GWP guidelines.

Specification

Compressor Type	1 x 3.85cc displacement
Refrigerant	HFC-compliant refrigerants
Cooling Power	125watt at -35°C
Lowest Set Temperature	Ambient to -35°C with automatic programmable defrost with manual override and digital display. Detachable cold storage bar.
Cabinet	ABS Polymer and Stelvetite Polymer coated steel - scratch, solvent and detergent resistant.
Cutting Stroke	30mm
Maximum Specimen Size	22mm diameter
Total Feed Range	10mm
Knife Holder	Magnacut blade holder with long-life disposable blades and integral anti-roll system
Object Holders	22mm
Specimen Orientation	Adjustable tilt angle 0-12°
Specimen Thickness Range	2-12µm in 2µm increments 4-24µm optional
Dimensions	H315 x W465mm(min)/ 546mm(max) x D740mm
Packing	Net weight: 40kg Gross weight: 48kg Packing dimensions: H400 x W920 x D550mm Shipping volume: 0.20m3

Weights vary according to specification of instrument

2212 Starlet

Order List 2025

PRODUCT			ACCESSORIES	
Code	Description		Code	Description
2212-021	Starlet 2212 Cryostat for 22/240V AC, 50/60Hz Complete with: • Single refrigeration system (-30 degree). • Manual microtome with 2-12um feed. • Magnacut knife holder with ten long life disposable blades. • Magnaplate anti-roll plate system. • Handwheel operation. • Specimen quick freeze (-40 degree) with digital display. • Programmable automatic defrost.		50894-3	Cryo block embedding mould, 22mm diameter.
	Standard accessories include: • Anti-roll plate. • 2 x object holders. • Knife, cleaning brush. • Detachable shelf. • Debris tray. • Blade removal tool. • Spare set of fuses. • Low temperature grease. • **Cryospray freezing spray. • Cryo-M-Bed embedding compound • Insulated cover. • Operating manual.		50894-2	Cryo block embedding mould, 16mm diameter.
2212-022	Starlet 2212 Cryostat (Same as 2212-021) for 110/120V AC, 60Hz		50894-1	Cryo block embedding mould, 10mm diameter.
2212-021-UV	Starlet 2212 Cryostat with fitted UV Decontamination for 22/240V AC, 50/60Hz Complete with: • Single refrigeration system (-30 degree). • Manual microtome with 2-12um feed. • Magnacut knife holder with ten long life disposable blades. • Magnaplate anti-roll plate system. • Handwheel operation. • Specimen quick freeze (-40 degree) with digital display. • Programmable automatic defrost. • Factory Fitted Ultra-violet night decontamination unit, consisting of night plug, power supply & germicidal lamp.		50874	Orientating object holder, complete with stem.
	Standard accessories include: • Anti-roll plate. • 2 x object holders. • Knife, cleaning brush. • Detachable shelf. • Debris tray. • Blade removal tool. • Spare set of fuses. • Low temperature grease. • **Cryospray freezing spray. • Cryo-M-Bed embedding compound • Insulated cover. • Operating manual.		50909	4-24 um feed screw (in place of 2-12um feed screw).
2212-022-UV	Starlet 2212 Cryostat (Same as 2212-021-UV) for 110/120V AC, 60Hz		50813*	Object holder, 22mm diameter.
			50829	Easi-Set anti-roll plate.
			52278*	Insulated night plug.
			50848*	Detachable shelf.
			57713	Bright Cryospray 134, 300ml aerosol can, carton of 12.
			53581	Bright Cryo-M-bed, 120ml bottle, carton of 6 bottles.
			57355*	Low temperature grease, 5g net.
			57344*	Knife cleaning brush.
			57808	Anti static brush, 12mm.
			50300-1*	Magnaplate anti-roll plate x3 & handle.
			52727	Pack of 50 long life disposable Magnacut blades, C profile.
			51564*	Blade removal tool.
			53768	Replacement microtome only - Rotary operation.
			53559	Spare fuse set for 2212-021.
			53560	Spare fuse set for 2212-022.

*Included in standard order | **Not included in overseas orders. VAT not included - E & OE
Valid from 1 January 2025
