

pette

Variable Volume Micropipette

EZEEpipette

Single Channel Variable Volume Micropipette

The new EZEEpipettes are a range of high precision micropipettes that offers a sophisticated blend of features and functionality. The instrument is fully autoclavable at 121°C and 15 psi for a duration of 10-15 minutes.

Finger-Hook

Takes the Weight, for a more relaxed grip.

Volume Display

With large and easy to read Numbers.

Pipetting Button

Rounded plunger with ridged and tactile volume wheel facilitating single handed operation .

Ejector Button

Large surface area makes it easy to eject filter tips.

Volume Ranges

Available in volume ranges from 0.2µl to 1000µl.

100 - 1000 µl

Contoured Shape

Comfortable and easy to grip for all hand types.

Universal Tipcone

A universal Tipcone enhances compatibility of the pipette and enables it to seamlessly work with most of the internally accepted standard tips.

EZEEpette

Adjust Volume Easy with Plunger

The plunger has been designed with a high quality spring mechanism to ensure smooth and snag free movement. Simply turn the easy adjust the instruments volume.

Assured Quality

The EZEEpette is calibrated in an ISO 17025 accredited laboratory according to ISO 8655 standards. A calibration certificate is included with every pipette as well as a calibration tool for quick in lab recalibration.

Eject Tips with a Tip Ejector

An in built streamlined tip ejector enables quick and easy tip ejection and comfortable access to bottles and tubes with narrow necks.

Set the Perfect Volume

A soft click sound at every Increment ensures perfect volume setting and prevents accidental changes.

Store Safely with a Holder

The EZEEpette includes a holder that enables quick, easy and safe storage.

Work with a Great Grip

A specially designed large grip provides fantastic grip and great ease of use.
