

NE1B Analogue Boiling Bath Boiling Baths

Clifton Range®

NE1B-14

Designed for applications that require continuous boiling. This bath also has the flexibility where the control can be regulated from a gentle simmer to a vigorous boil.

Comprising of a stainless steel tank housed in a durable paint finished outer case. Painted surfaces feature a tough anti-bacterial finish with good chemical resistance. Complete with a removable stainless steel perforated false base. The bath, which is simmer-statically controlled, is ideally suited to prolonged periods of boiling.

Fitted with a sheathed immersion element. With the heater directly immersed in water it provides rapid boiling. A standard feature is a constant level device, which maintains a fixed level of liquid thereby eliminating the need to regularly top up the bath.

	NE1B - 14	NE1B - 18W	NE1B - 28
GENERAL			
Temp. Range	Simmer to boiling at 100°C		
Temp. Control	Analogue dial, energy regulator		
Heater Power (220-240V)	2500W		
Water Level Alarm	Features low liquid level float device, heating automatically suspended		
Voltage	230V / 50-60Hz		
Supplied with Lid	✓		
Drain Tap Fitted	✓		
DIMENSIONS			
Tank Capacity	14 Litre	18 Litre	28 Litre
External (mm)	362w x 332d x 290h		538w x 332d x 290h
Internal (mm)	325w x 300d x 150h	325w x 300d x 200h	500w x 300d x 200h

Low liquid float device

A low liquid float device protects the heaters and a red warning light on the front panel alerts users to refill the bath.
