

# Frontier® ACELA XP

## High Performance Explosion Proof Fume Hood

### Introduction

The Frontier Acela® XP Series Fume Hood is an explosion proof fume hood designed and fitted with ATEX / IECEx Zone 1 rated electrical components. It provides the highest level of chemical containment and almost no possibility of sparks in the workzone.\*

Suitable for applications or rooms which have presence of highly flammable or explosive gases and vapours especially in the Oil & Gas industry

### Structure

- Esco Resinate Plus internal liner is constructed from high quality Fiber-Reinforced Plastic (FRP) liner which is UL1805 approved for flame spread test
- Customised to fit any models of furnaces flushed to the work surface
- Tri-wall construction for maximum robustness
- Robust chain and sprocket sash support system

### Ergonomics

- 5° Angled Front or the Perfect Pitch Profile™ allows users to lean forward and also minimizes glare and reflections. The gentle pitch of the hood profile enhances visibility and maximizes operator comfort.

### Safety

- Compliant to both ASHRAE110 and EN14175 standards for fume hood safety
- Perforated lower baffle improves overall containment of the fume hood
- Aerodynamic designs of the airfoil, shaping vanes and sash handle guards the entire perimeter of the sash opening ensuring airflow turbulence is minimized
- Sash stop limits sash movement beyond 457mm (18"), encouraging users to work at safe positions
- Esco's sash Creep-Down mechanism automatically lowers the sash to a safe position whenever it is temporarily raised above the sash height limit of 457mm (18")
- Sash is made from 6mm tempered safety glass with lamination

### Energy Efficiency

- Operates safely at face velocities as low as 0.3 m/s (60 fpm)
- Exhaust volume reductions of up to 58% can be achieved without compromising safety.
- Energy savings T5 lighting

### Serviceability

- Removable baffle design allows for periodic cleaning of hood's rear wall. This helps eliminate potential clogs in this area that can reduce containment
- Internal access panels on the side walls facilitate access to plumbing connections
- Chain and sprocket sash system requires minimal service

### Standard Explosion Proof Accessories

- Explosion Proof Light Fixture
- Explosion Proof Electrical Socket Outlet
- Explosion Proof ON-OFF Light Switch
- Explosion Proof Junction Box

### Optional Accessories

- Remote control fixtures for water and special gases
- Large sinks
- Support stand
- Base storage cabinet

### Warranty

- The Frontier Acela® High Performance Fume Hood is warranted for 1 year excluding consumable parts and accessories. Contact your local sales representative for specific warranty detail

\*Disclaimer: The Frontier Acela® XP Fume Hood not designed or independently tested to comply to any Explosion Proof Rating Standards such as ATEX/IECEx at system level. If required, the user is responsible for certification of the fume hood according to the ATEX/IECEx rating.

Ordering Code	Description	
EXP-001	<b>Explosion Proof Light Box – 9E</b> <ul style="list-style-type: none"> <li>• Quick release diffuser with isolation switch for</li> <li>• Fast, safe re-lamping</li> <li>• Flush with ceiling fitting reduces dust build up Low running costs due to the 50,000 hour electronic ballast</li> <li>• 1 piece for 4/5 ft, 2 pieces for 6/8 ft</li> </ul>	
EXP-002	<b>Electrical Socket Outlet</b> <ul style="list-style-type: none"> <li>• Enclosure made of glass fibre reinforced polyester resin</li> <li>• Fitted with flange sockets according to the order</li> <li>• 1 on left side post and 1 on right side post: total of 2 pcs EO</li> </ul>	
EXP-003	<b>Installation ON-OFF Light Switch - 8030</b> <ul style="list-style-type: none"> <li>• 2 pole OFF switch Robust moulded plastic enclosure</li> <li>• Large fluorescent turning handle</li> <li>• Degree of protection IP65</li> <li>• Only 1 per fume hood</li> </ul>	
EXP-004	<b>Explosion Proof Junction Box &amp; Cable Gland</b> <ul style="list-style-type: none"> <li>• Only 1 per fume hood</li> </ul>
