

ERGONOMIC PIPETTING FOR PROBLEM LIQUIDS

| **CONTAMINATION-FREE PIPETTING**

Minimize the potential for pipette, sample, and human contamination with MICROMAN[®] E. Dispose of the capillary piston (CP) tip safely with a push of the button.

| **RELIABLE RESULTS EVEN WITH PROBLEM LIQUIDS**

Whether a viscous, volatile, hot, or cold sample, MICROMAN E can handle the job with accuracy and precision.

Have complete confidence in your results with the new volume-locking switch that reduces the risk of accidental volume adjustment.

| **PROTECT YOUR PIPETTES**

Positive-displacement technology makes it the ideal pipette for volatile liquids that can contaminate and corrode mechanical pipette pistons.

100% PROTECTION AGAINST CONTAMINATION

The disposable piston is located inside the capillary tip so users can be assured that no harmful samples will contaminate the pipette.

- Dye-free — no risk of chemical contamination.
- Made of pure polypropylene.
- Lightweight and slim CPs fit in even the narrowest of tubes.
