Spark Free Freezer

DW-25L92SF/FL

Interior Designed
for Explosion Proof, HC
Refrigerant System for
Energy Savings, and Smart
System Control

Explosion Proof Interior

SF series freezers feature standard interior design, door frame, and drawer. FL series freezers feature antistatic interior design, door frame, and stainless steel shelves. All metal parts are grounded reliably and interior design is explosion proof. Certificates include China anti-explosion proof and EU explosion proof ATEX II C-T6

HC System to save energy

- Hydrocarbon compressor, and hydrocarbon refrigerants complete a true green, environmentally safe refrigeration system
- Cyclo-isopentane polyurethane foam insulation meets EU ROHS directive for a green and safe environment
- Optimized hydrocarbon refrigeration system design ensures a more energy efficient operation

Excellent temperature uniformity

Cold shelf evaporator design allows a faster cool down, and more uniform temperature distribution, typically $\pm 3^{\circ}\text{C}$

Low noise

Unique structural design and system emits only 27 dba in sound level, eliminating unhealthy high pitch noise

Safer by Design

Micro-processor control system

- Micro processor control with LED temperature display and adjustable range of -10°C to -25°C ; 1°C increment;
- Multiple alarms including high temperature, low temperature, sensor alarm and door ajar alarm;
- Alarms are in buzzer and flashing light. Remote alarm contacts are available.

Safety lock

Unit door is lockable for safety.

Warning labels

Warning label on the unit front for SF series with non-antistatic interior design.

Drawers and shelves

Three plastic drawers are standard for SF series units.
Three stainless steel shelves are standard for FL series units.

Under-counter design

Unit dimensions are designed to fit under a counter.

Caster

Standard caster and leveling leg design for ease of maneuvering and securing the unit on ground.
